

For the benefit of all those who haven't had time to chat with the candidates and refuse their cigars, the News today is carrying a complete list of office seekers. Read it!

CLOUDBURST AT DENVER LEAVES MANY HOMELESS

Cherry Creek and Platte River Go on Boom as Water Comes Down

BRIDGES SWEEP AWAY

Whole Farms Inundated and Crop Loss Today Reported Heavy.

(By the Associated Press)
DENVER, July 29.—A cloudburst and heavy rains yesterday and last night sent Cherry Creek and the Platte river, both of which flow through portions of Denver, many feet above the normal stage, drove many families from their homes, causing serious damage in some instances destruction of bridges and highways, and marooned many motorists on the mountain roads radiating from Denver.
The cloudburst occurred in the afternoon at Parker, Colorado, 25 miles southeast of here.
Considerable damage was done to the packing plants and the homes in that vicinity.
By nine o'clock several bridges in Denver and nearby were washed away and an hour later the Colorado and Southern railroad bridge at 14th and Winthrop streets dropped into the swollen stream.
Shortly before midnight the Denver and Salt Lake railroad bridge across the Platte river at 19th street collapsed.
The deluge of water at Parker caused serious damage to crops and bridges, according to reports received here. Cherry Creek overflowed its banks at many points, inundating whole farms and ruining whole crops generally along the banks.

FRANCIS STRIKE FRONT IS SOLID

Shopmen Declare Victory Is In Sight in Rail Walkout Move.

With one exception the strike of railroad shopmen has been conducted at the Frisco shops at Francis without disorder, according to reports received here. About 45 shopmen are on strike there and the men are spending their time attending daily meetings and reading newspapers of the progress of the national strike.
One arrest was made a week ago when a strike sympathizer accosted one of the strike breakers while the latter was on his way to the post office under guard, it is reported. What charges were preferred against the man were not learned. No disorders resulted and the men are following the policy of "watchful waiting."
Work in the shops is greatly hampered, according to information which is obtained from various sources. Non-union labor is being used as much as possible and the work of repairing necessary train material is kept up. The shops and yards are heavily guarded and only those with passes are permitted to enter.
Sentiment of practically the entire town of Francis is with the strikers, who expect to win their fight in the near future and return to work. Only one member of the entire union remained on the job after a strike was authorized July 1.
Machinery Needs Repairs
Much work will have to be done before the Francis yards are in normal condition again, according to the opinion of many strikers and others who are in a position to accurately observe the operations of the makeshift crew. Machinery is in need of repair in many instances and engines and cars needing repair work are collecting, it is said.
Blame for the strike is placed by the railroad men upon the labor board. They believe, however, that a satisfactory settlement will be reached and that all men will get their jobs back. They will admit nothing but a victory for the union, declaring that they will not give in until their demands are accepted.
Officials of the shopmen's union at Francis have cautioned men against violence and are of the opinion that the strike will cause no disorder in Francis, even though it continues for several weeks more. It is understood that only about half as many men as now being employed as previously—carried on the work of the Frisco shops.

Fuel Boss Named in Federal Plan to Guard Supply

(By the Associated Press)
CHICAGO, July 29.—While officials of the miners union insisted on plans for a conference between operators and miners to settle the strike in the soft coal mine strike, federal and state officials continued preparations for distribution of coal under government supervision.
Appointment by President Harding of Henry B. Spencer as federal coal administrator and the appointment of an advisory committee of operators were taken by coal men here to mean that the federal government would not halt its plans despite the fact the outlook for peace is considered brighter.
Governors of additional states were expected to add their names to the list of 23 state heads having assured Secretary Hoover that they will establish state administrations for prevention of profiteering and for control of coal distribution.

NEGRO KILLED BY WHITE MOB AFTER QUARREL

(By the Associated Press)
TEXARKANA, Texas, July 29.—Officers today were searching without a clue to the identity of the band of about 100 men who yesterday shot to death John West, negro, near Guernsey, Arkansas, following a quarrel between West and Henry Worthington, a paving foreman.
West and Worthington came to blows following a dispute over a drinking cup, both using sledge hammers, but neither was seriously injured. West is later said to have been warned to leave town and boarded a train at Hope, bound for Texarkana. When the train reached Guernsey, a half dozen men went into the train and took the negro off. They were joined by about 90 others, who after dragging the captive a short distance from the track, shot him to death.
The body was left where it fell and the mob dispersed. Only one of the men was masked.

Producing Mines Are Given First Call on Railroad Coal Cars

(By the Associated Press)
WASHINGTON, July 29.—All producing coal mines of the country will be given the first call on railroad coal cars as soon as the organization of the administration emergency fuel control machine is completed, it was announced today by Secretary Hoover, chairman of the federal coal distribution committee.
The priorities on cars to producing mines will be passed upon by distribution committees, Mr. Hoover said, so that all coal may be obtained under the fair prices agreed upon to prevent profiteering. The commerce secretary said that it would then be up to the states to maintain prices within their boundaries by prevention of resale and profiteering.

SENATORS PLACE SELFISH VOTES

Judiciary Committee Will Conduct Probe Upon Vote on Tariff.

(By the Associated Press)
WASHINGTON, July 29.—Investigation of charges that certain senators are interested financially in the rates of duty proposed in the party schedules of the pending tariff bill is proposed in a resolution introduced today by Senator Caraway, democrat, Arkansas.
The inquiry would be conducted by the judiciary committee, which would be instructed to report to the senate within ten days. Also they would report on the charge that senators, in the language of the resolution, are or were financially interested in the passage or extension of the so-called emergency bill.
Senator Caraway read from an editorial in the New York Herald charges that certain senators were interested in the production of wool and immediately was challenged in succession by all the senators mentioned in the editorial with the result that a running cross fire of debate waxed warm at times.
Senator Gooding, of Idaho, chairman of the republican agricultural tariff bloc, said that Senator Caraway voted for a duty on rice and that his interest in rice should be investigated. Denying that he or any relative had any financial interest in the production of rice, Senator Caraway said that he would say to anybody who so charged that he was an "unqualified liar."

MID-SUMMER THRILLS

Two Strikers Hurt in Fight

ALL OF DENISON UNDER MILITARY

Army Officials Express Belief That More Men Are Needed Today.

(By the Associated Press)
DENISON, Tex., July 29.—The entire city of Denison is under martial law and is being patrolled by state troops today following Governor Neff's proclamation yesterday enlarging the military district which was originally confined to the railroad property. The governor's action induced by the outbreak Thursday night when two negroes were kidnapped on Main street and taken to the Red River and taken to a nearby farm where they were held. The men were released by local citizens, who went about their business as usual today.
Military authorities expressed the opinion that the situation brought about by the shopmen's strike is growing more serious and, prompted by this belief, have asked that additional state troops be sent to reinforce the 300 already encamped here.
Preparations are being made for a lengthy stay, officers say.

HERE ARE LAWS YOU MUST OBEY IN YOUR VOTING

(By the Associated Press)
State laws in Oklahoma regarding illegal voting are as follows:
Casting a ballot without being entitled to vote: penalty five years in penitentiary.
Procuring a person to vote who is not entitled to do so; penalty, five years imprisonment.
Voting more than once; penalty, a fine not exceeding \$1,000, or one year in a county jail, or both, and disfranchisement for ten years.
Charges of illegal voting may be made during an election by any elector by affidavit to a justice of the peace or the county court, whereupon a warrant for arrest of the person charged shall be issued.
Persons making a false affidavit are guilty of perjury.
Electors shall vote at a primary election only with the party with which they affiliate when registered, and if voting with another party may be challenged and not permitted to vote until they shall make affidavit they affiliate with the party with which they are trying to vote.
Enid.—Nine building permits totaling \$30,000 were issued by the city engineer for the week ending July 22, according to a report prepared in his office.

75 Idle Shopmen Battle Squad of Marshals at Chicago Today.

(By the Associated Press)
CHICAGO, July 29.—Two striking Illinois Central shopmen were wounded in a fight between 75 strikers and a squad of deputy United States marshals at the Burnside shop this morning.
The trouble started, according to the deputy marshals, when the crowd surrounded J. M. Morgan, one of the deputies, and the mob leader, said to be Clifford Bailey, a striker, shouted, "Let's get him."
Morgan shot Bailey in the stomach and in the ensuing riot another striker was snatched in the leg.

SUPERVISORS SUBMIT PLEA TO PRESIDENT
ST. LOUIS, July 29.—W. V. O'Neal, president of the international association of railway supervisors of mechanics, today addressed an appeal to President Harding to consider the position of the supervisors in any proposition he may make to end the shopmen's strike. The organization claims a membership of 25,000. A number of supervisors have been discharged for refusing to perform the duties of the strikers, Mr. O'Neal asserted, while others quit work when told to do the work of strikers, and the appeal asks that the interests of these men be protected.
In the telegram to the executive O'Neal said the railroads had members of the organization do the work of the strikers, although he declared the United States railroad labor board had rendered the opinion that other railroad crafts could not be requested to perform the work of the strikers.
O'Neal asked the president to see that all the members of his organization who have not committed an overt act, shall have the privilege of returning to the jobs from which they were either discharged or quit as a result of the shopmen's strike.

PRISONERS USE WIRE TO ESCAPE FROM JAIL

(By the Associated Press)
ARDMORE, July 29.—Using a small wire from a broom five prisoners cut their way from the city jail last night. This is the second jail delivery within the last month. Two prisoners in the run-around with those who escaped remained but did not mention the escape until this morning.

Weather

WASHINGTON, July 28.—Weather outlook for the week beginning Monday: Upper Mississippi and lower Missouri valley, generally fair with temperatures nearly or somewhat below normal.
Probably scattered thunder showers tonight and Sunday, cooler in north and west portions tonight and in the east and south portions Sunday.

12 SUBMARINES REPORTED SAFE

No U-boats Lost Despite Serious Trouble Near California Coast.

(By the Associated Press)
LOS ANGELES, July 29.—All of the 12 submarines enroute from Los Angeles to Hampton Roads, Virginia, in convoy of the tender Beaver are said at the local submarine base to be accounted for this morning.
Two submarines are out of commission but are being towed, it was said, no serious trouble is being experienced. Early reports to the effect that four submarines were missing grew out of the statement of Captain Thomas W. Sheridan, master of the liner City of Honolulu, that he had sighted a badly smoking submarine off the lower California coast below Ensenada.
Some degree of verification was added by a message received last night at the submarine base here from Commander Roy L. Stover, in command of the flotilla, stating that he had eight submarines in convoy, but not mentioning the other four reported missing.
Later Captain W. S. Miller, commanding officer of the submarine base, denied that any serious accident had befallen the undersea flotilla.

One is Dead, Four Missing as Blazes Sweep K. C. Hotel

KANSAS CITY, July 29.—With one person known dead, four missing and about a dozen injured, firemen were searching the wreckage of the Viaduct hotel at Eighth and Main here today for other possible victims of an explosion last night which with the fire that followed, completely wrecked the hotel and adjoining buildings.
The explosion occurred last night at the rear of the restaurant, in which many persons were eating. The cause has not been definitely determined today but it is believed to have been due to escaping gas.

AMERICAN CONSUL'S SON ESCAPES FROM CAPTORS

SAGUALA GRANDA, Cuba, July 29.—Eugene Jova, son of the American consular agent here, who was kidnapped yesterday by bandits and held for a \$20,000 ransom, escaped from his captors early today after a fight in which he was wounded, according to the chief of police here. The chief said that he believed he had the bandits surrounded.

Ardmore Klan to Hold Initiation and Public Feed

ARDMORE, July 29.—Following an open air barbecue and picnic just north of the city this evening, members of the Ku Klux Klan will parade the streets and later will hold an initiation ceremony tonight despite the request of Sheriff Ewing C. London, that the initiation be not held, it was officially announced this morning.
Plans are being made to serve 5000 at the barbecue and it is reported that all the chapters within a radius of one hundred and fifty miles of Ardmore in both Oklahoma and Texas have been invited. During the past two days a messenger in an airplane has been spreading the call.
Late yesterday Sheriff London asked that the Klan desist because of the tense feeling over the approaching primary.

WIMBISH GIVES ELECTION LAWS UPON WATCHERS

Information to election officials over the county upon the privileges which may or may not be allowed to "watchers" on election day, was contained in a letter issued today by Robert Wimbish, county chairman.
It follows:
"So far as I know, for the first time in the history of Pontotoc county, certain candidates are asking for watchers to be present at the various precinct election boards. If any persons appears before your election board do not admit him as a watcher unless he has a written authority from the candidate that he purports to act for. At least one person has appeared before an inspector and orally stated that he would be a watcher and has demanded to know whether or not the inspector would issue a warrant for pay for services as watcher. Under the law you have absolutely no right to issue such a warrant. If a watcher acts he must either work without pay or be paid by the candidate employing him. Under no circumstances admit a watcher unless he bears written authority from the candidate that he purports to represent.
"The watcher has no authority over the election board and cannot question their acts as to who should vote. The only authority they have is to see that the votes are counted correctly."
"ROBT. WIMBISH, County Chairman."

Drowned Man Found on Sand Bar Today in Arkansas River

(By the Associated Press)
TULSA, July 29.—Sheriff William McCullough and the police were notified this morning that the body of a drowned man had been found on a sand bar in the Arkansas river, some distance below here. The body was brought here.
According to reports the body was found face down. There was no mark of identification, and the man had apparently been dead for several days, so that identification would be difficult.
The body is believed to be that of the unknown man who jumped off the Arkansas river bridge a week ago and is thought to be D. H. Thomas, 40, said to have been at one time a Georgia millionaire, who disappeared from a hotel last Saturday after behaving in an eccentric manner for several days.
Senate Approves Duty.
(By the Associated Press)
WASHINGTON, July 29.—By a vote of 26 to 24 the senate approved today the duty amendment on imported clothes for men's suits. Seven republicans voted against it and three democrats supported it.

PLAN FOR SETTLEMENT OF STRIKE ATTACKED

CINCINNATI, July 29.—The proposed plan for settlement of the nation-wide railroad strike was attacked today by H. A. Worcester, vice president of the Big Four railroad system, who declared that if the striking shopmen were granted seniority it would mean that the new men when they were engaged to fill the places of the striking shopmen.
Mr. Worcester declared that "to grant seniority to the striking shopmen who left their shops, means that the new men who have been engaged to take their places and had been promised permanent jobs, will have to be turned out."
Four Killed in Wreck.
(By the Associated Press)
BERLIN, July 29.—Four persons one of them an American passenger named R. M. Murrill of Charlotte, North Carolina, were killed in the wreck of the German postal airplane which crashed near Boisenberg, not far from Hamburg yesterday.
Los Angeles school children write daily on the blackboard, "it is dangerous to play on the street."

RAIL STRIKE TO SEE END WITHIN WEEK IS BELIEF

300,000 Shopmen Entering Fifth Week of Idling; Hope is Stronger.

HEADS MEET TUESDAY

Strikers' Delegates Are Ready to Confer as Result of Call.

(By the Associated Press)
CHICAGO, July 29.—As the strike of 300,000 railway shopmen enters the fifth week today the outlook for peace is bright and in rail circles here the belief is expressed that the walkout will not last into the sixth week.
Meetings are set for Tuesday both by rail executives and worker on strike at which President Harding's plan for settlement is to be acted upon. The conference of the rail heads, the call for which was issued Thursday by P. Dewitt Cuyler, chairman of the association of railway executives, will be held in New York. Representatives of the strikers will meet in Chicago in answer to word sent out last night by B. M. Jewell, head of the shop workers organization, to the general chairman comprising the national executive board. At the same time notice was given the 25 general chairmen of the stationary firemen and others, which ordered a strike of 8,000 men the week following the shopmen's walkout, by Timothy Healy, head of the union, that a meeting would be held here Tuesday to discuss settlement of the strike of that organization.

The president's plans were not made public. However, it became known from authoritative sources that they include settlement of all strikers grievances except the wage question, which will be submitted to the railroad labor board for rehearing.
STRIKE SETTLEMENT NOW UP TO EXECUTIVES
(By the Associated Press)
CHICAGO, July 29.—Settlement of the railroad shopmen's strike, brightened by President Harding's intervention, rested apparently today with the decision of the railroad executives. While neither they nor the strike leaders announced what stand was to be taken on the proposed program, union leaders here were of the opinion that the plan would be accepted by the strikers.
Officials of western roads withheld comment on the grounds that they were ignorant of the president's exact proposal, and none seemed inclined to change the avowed statement of favoring the men now at work being placed at the head of the seniority lists.
Strike leaders headed by B. M. Jewell, were due back at headquarters during the day and meanwhile preparations are under way for a meeting of the strikers general committee of 90 members.
Violence, minor in character, continued in marking the continuation of the strike.
Tens more disputes between railroad waymen and their employers were submitted to the United States railroad labor board for decision by E. F. Grable, president of the waymen's brotherhood, in line with the policy of leaving settlement of wage and working conditions to the board.

Vets Offer Blood

WASHINGTON.—Walter Reed General Hospital, here, at which so many wounded veterans of the world war have been restored to health, and at which there are still many patients, boasts of the strangest roster in the whole army service. It is a list of men, hospital attendants, who are not only willing, but anxious, to give of their blood to those of their comrades who can be cured only by having injected in their veins the healthy red blood of a strong man.
There is a long list of these men, usually not less than 50, who have signified their willingness to give a pint or more of their rich blood to strengthen weakening soldier patients.

SIGNAL CORPS PICTURES AVAILABLE TO POSTS

State headquarters has pointed out to posts of the American Legion of Oklahoma that official Signal Corps pictures can be secured from national headquarters and shown by the posts without depending upon transients showing them. The latest trouble with transients is reported by C. M. Sherman, adjutant at Sentinel. He stated that the picture brought by J. T. Meyers was not all as represented and that Meyers left without paying his hotel bill. He stated

that Meyers was later caught at Clinton and the deal cost him about thirty dollars.

SPORTING GOODS TO BE SOLD AT WHOLESALE

All posts and individual members of the American Legion may now secure anything of the entire line of Wilson Sporting Goods at wholesale prices by ordering through the Emblem Division, National Headquarters American Legion, Indianapolis, Ind., which will secure the shipment C. O. D. The Emblem Division has just completed such arrangements which will assist posts to secure proper equipment for try-out prior to the state athletic meet during the state convention at Bartlesville September 11-12 and the national athletic meet at New Orleans.

CONGRESS NOT TO STOP UNTIL BONDS PASSED

"There will be no adjournment of congress until the soldier compensation bill has been made a law. It will be taken up and disposed of under a special agreement as soon as the tariff bill is passed," says a statement made by Senator McCumbr of North Dakota, chairman of

the senate finance committee, to Mrs. H. R. Smith of Whitman, Mass. Mrs. Smith, accompanied by scores of American Legionnaires and twenty wounded veterans from the Walter Reed hospital, carried a petition bearing a million signatures to congress, urging the passage of the bill.

Casualty List Asked

A list of all Oklahoma men who died in the service during the World War has been requested by the American Legion of Kentucky, which will place a list of all deceased ex-service men of the United States under the corner stone of a monument to be erected in their honor in the Mammoth Cove. The stone will be laid August 30, during Kentucky state convention.

Picture "American" Presented

The French government presented, "America" to the American Legion. National Commander MacNider wrote a letter of appreciation to Leo Reni-Mel, the painter of the picture who will be presented at Legion headquarters at Indianapolis.

This year state delegations to the National Convention of the American Legion, New Orleans will march in the parade in the order of their standing in comparison of last year's strength. Oklahoma will benefit by this arrangement as they are now eighth in standing, whereas when the line of march was arranged alphabetically they were far back in the line.

Fokker Cooperating

A. H. G. Fokker, whose airplanes were used extensively by the Germans during the war, has come to American and is now co-operating with the American Naval designers, according to American Legion information. Experiments in which Fokker is taking an active part are being made at the government aviation station at Anacostia, D. C.

Indian Bonnet in Style

Indian bonnets are again being worn by the Oklahomans to the New Orleans convention October 16-20. Post commanders will next week be asked for a preliminary estimate of the number going from each post. Members are asked to immediately signify to their commanders their intentions to attend.

Legion Lays Cornerstone

Because it represents the defenders of right and justice, the American Legion was asked to lay the cornerstone of the Rapillion, Neb., country court house, which cost over a half million dollars.

Run Special Trains

Special trains will probably be run from Oklahoma to New Orleans for the National Convention. A one-way fare has been offered by the rail roads, but the American Legion is working hard to get a one-cent fare.

Crowd Sees Sham Battle

The largest crowd ever assembled in Northwestern Oklahoma was at Woodward for the Fourth of July celebration sponsored by the Woodward post No. 19 of the American Legion. It is estimated that two-thousand cars were parked around the field where a big sham battle was staged in the evening. The sham battle was a wonderful sight

THANKFUL FOR A LITTLE CHILD

Mrs. Mertz Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Kutztown, Pa.—"I wish every woman who wants children would try Lydia E. Pinkham's Vegetable Compound. It has done so much for me. My baby is almost a year old now and is the picture of health. She walked at eleven months and is trying to use her little tongue. She can say some words real nice. I am sending you her picture. I shall be thankful as long as I live that I found such a wonderful medicine for my troubles."—Mrs. CHARLES A. MERTZ, Kutztown, Pa.

Many cases of childlessness are curable. Perhaps yours may be. Why be discouraged until you have given Lydia E. Pinkham's Vegetable Compound a faithful trial?

Spoken and written recommendations from thousands of women who have found health and happiness from its use have come to us. We only tell you what they say and what they believe.

We believe that Lydia E. Pinkham's Vegetable Compound is so well adapted to the conditions which might cause your trouble that good will come to you by its use.

Mert is the foundation of Lydia E. Pinkham's Vegetable Compound. It has behind it a record of nearly fifty years.

Justice of the Peace
City of Ada
Worthy, well qualified, honest and sincere. He will have no favorites. Vote for him August First.

and these have been at work. In some places, especially the bottoms, where the stalk has grown rank, there is considerable complaint of the depredations. From what I have seen I am of the opinion that the uplands will make more than the bottoms. The very hot weather of the past few days was a great help to farmers who are going their limit in fighting the pest, for no square on the loose soil can possibly hatch before the square is dried up. It is a matter of getting them into the sun. Of course one finds a good many grown bolls in some fields and there are many small bolls and blooms. The size of the crop will depend largely on the weather and the fight put up against the weevil.

The first car of melons was loaded out Saturday by the growers. C. W. Zorn also shipped a car of peaches to Fort Worth, Texas. It is to be hoped that railroad conditions will not interfere with these shipments. The melon crop is fine and if the growers can get any sort of price they will make good money out of this enterprise.

Graves Hammond showed the News a Siamese twin cantaloupe. Each melon had a stem of its own but were joined together for some distance down the sides.

Purebreds in Oklahoma.

According to recent census reports Oklahoma has 48,252 purebred cattle, 2,786 purebred horses, 2,942 purebred sheep, and 53,888 purebred swine. Of the cattle referred to 9,539 are of dairy breeds.

Purebred livestock was found on 21,228 Oklahoma farms. Percheron horses predominated among the purebred horses. Shorthorn cattle totaled 22,019, with Herefords numbering 12,133, comprising a majority of the beef breeds, while Jersey cows totaling 5,104 totaled more than one-half of the dairy breeds. There were 3,741 Holstein-Friesian cows.

Only 406 Oklahoma farms carry purebred sheep, although 10,797 farms were stocked with purebred swine. Oklahoma last year had 26,268 Duroc Jersey hogs, 21,772 Poland China hogs, 1,957 Chester White, and about 2,700 of other breeds.

"Educational Insurance," the New York Life sells it. 7-29-22

TO THE DEMOCRATS OF ADA:

The campaign for the Democratic nomination for Representative in Congress in this district ends Tuesday. Owing to the press of the campaign in other parts of the district, I regret that I am unable to canvass my home city. I feel that I can more safely leave my cause in the hands of the people among whom I have lived for the past 21 years uncanvassed, than any other part of the district.

You are acquainted with my hardships and struggles incident to my political career, and with my record as a public servant. You have on all occasions stood by every effort to add something to the improvement of Ada and the advancement of her citizens. You have always voted for me in the past with the steadfastness that has won the admiration of the entire district. It was no fault of yours that I was not elected in the fall of 1920, because Ada did her full part.

I want every reader of this to feel that I am talking to him or her personally and that this is a hand-shake and request to vote for me on Tuesday.

I shall never be able to repay the people of Ada for the kindnesses and courtesies extended to me in the past, and my gratitude is due persons in every walk of life in the city. If elected I shall show my appreciation by making every effort to carry out the high trusts imposed so as to reflect credit upon your selection. Whatever may be the outcome on election day, I am confident that you will again take care of my interest at the polls.

Thanking each and all of you for your past support, I am

REAL SERVICE

The people of Oklahoma have said a great deal about the need for efficiency and honesty in office. If the people really mean what they say and if the people are fully informed there will not be a Democrat ballot cast against E. W. Hardin, present insurance commissioner and candidate for re-election. Oklahoma has never had a more efficient state official than E. W. Hardin. His department is a rather quiet one, it is rarely in the public eye, and for that reason there may be a great many people unacquainted with Mr. Hardin or with his splendid record. But a fair index of his administration may be found in the fact that his office last year collected in fees from insurance companies the sum of \$751,352.27 at a cost to the state of only \$20,793.93—a clear profit to the state of \$730,558.34. This is a remarkable record and the public should mark its appreciation by saying to Mr. Hardin, "Well done, good and faithful servant." He should receive the support of every Democrat in Oklahoma. Luther Harrison in Holdenville Democrat, June 23. (Advertisement)

Joseph C. Looney Democrat for State Senator, 23rd District

TO THE VOTERS OF PONTOTOC AND SEMINOLE COUNTIES:

The end of a rather strenuous campaign is at hand. I have presented my case to you in a straight forward manner. I have not resorted to extravagant promises, wild rumors, or false representations. I've endeavored to appeal to your intelligence and good judgment by seeing as many of you personally as possible and by presenting my claims from the platform in a simple, fair and honest manner.

I do not have the money to flood these counties with letters and campaign literature or carry on an expensive advertising campaign. Besides, I am opposed to such on principle. In addition, the office does not pay enough to justify such an expenditure of money. Furthermore, if a man spends more than \$250.00 in this race for State Senator, he cannot take his seat after being nominated and elected without swearing falsely—and I would not do that for the office. Moreover, I want it distinctly understood that I have paid my own campaign expenses, hence will not go into office with my hands tied or my back bent with the burden of special promises.

Again, let me re-state some of the more important things for which I stand.

1. The continued development of our public school system; state aid to rural schools; and, the advancement of the Ada Normal as a Teachers' College with a four year course above high school.

2. Automobile license tax to be collected by the county.

3. Tax on foreign corporations on the volume of business transacted in Oklahoma in cases where such corporations own practically no taxable property here, because many of these corporations transact millions of dollars worth of business every year, yet only pay a small annual license fee as a tax.

One of my opponents, Mr. Ebey, also has a similar plank in his platform. Now, loan and insurance companies will be affected by such a law. Mr. Ebey represents both. I am not dependent upon either for a livelihood. Then, which of us is in the better position to help place such a law upon our statute books? What would Mr. Ebey do under the circumstances? What could he do? I am free to work for the passage of such a law.

4. An effective home ownership law to assist tenant farmers in purchasing their own homes.

I request all of you who believe in me, who approve my method of campaigning, and who endorse the principles for which I stand to work for me and vote for me. Believing in the wisdom of the people, I now submit my case to you for your decision, and ask that you return for me on August the First, a favorable verdict.

Sincerely, JOSEPH C. LOONEY

Fred F. Brydia Democrat For the Legislature

Believes and will work for laws favoring:

Collecting automobile tax at home and spending the money on any road or bridge located in this county, regardless of whether it is on the State Highway. We know better where we want our own money spent than the highway department located at Oklahoma City.

Make every country school district a voting precinct where the residents of that school district can vote and register; make the country school boards the judges and clerks of election; make the clerks of the country school boards the registrars for that district; make the voting precincts in incorporated towns the same as the school precincts; making the principals of the ward schools the registrars for that ward; this will take the election officers and registrars out of factional politics and make voting more easy, especially for the women.

Increase the growing prestige of the State Normal and Teachers College.

Make each legislative district consist of not less than five counties unless the population exceeds 200,000 people.

Co-operative system of marketing for farm products. The more money the farmer gets for his products the more prosperous the entire community will be.

Repeal Street Tax Bill—tax property, not people. Your vote and influence solicited.

FRED F. BRYDIA DEMOCRAT FOR MORE THAN 20 YEARS

R. H. Wilson for GOVERNOR

WILSON WILL WIN.

1. Farmers are for him because he has been their firm friend and the best friend children have ever had. He has striven constantly to improve the conditions of the rural schools.

2. Laborers are for him because he has at all times had their interests at heart. No one is more democratic and no one knows the difficulties which confront the laborer so well as does Mr. Wilson.

3. The women are for him because they admire his blameless private life and because his stand for religious training in the public schools appeals to them.

4. Business and professional men are for him because they know that his knowledge of the needs of the state coupled with his capacity for work, his honesty, and his courage will enable him to give Oklahoma an honest, progressive, and constructive administration.

5. Democrats who believe in the principles of Jefferson and Jackson are for him because they know his adherence to these principles is unswerving and unflinching.

6. All who desire good government should vote for Mr. Wilson. His election will mean that grafters must take a vacation during his term of office.

This ad is paid for by some of Mr. Wilson's Pontotoc County friends

ANALYZING SOIL SCIENTIFIC JOB

But University of Illinois
Gleans Big Facts From
Its Researches.

(By the Associated Press.)
URBANA, Ill.—The University of Illinois' Soil Survey work which has attracted wide interest, is as "intricate and exacting" as it is scientific and important," says an official statement, today from the University describing the work.

"In conducting the soil survey, the county constitutes the unit of working area," the statement said. "In order that the survey be thoroughly trustworthy it is necessary that careful, well-trained men be employed to do the mapping. The work is prosecuted to the best advantage by working in parties of from two to four. Only such men are placed in charge of these parties as are thoroughly experienced in the work."

"The men must be able to keep their location exactly and to recognize the different soil types, with their principal variations and limits, and they must show these upon the maps correctly. A definite system is employed in checking up this work. As an illustration, one man will survey and map a strip 80 rods wide and any convenient length while his associate will work independently on another strip adjoining his area, and if the work is correctly done the soil-type boundaries will match up on the line between the two strips."

Base Map Necessary.
"An accurate base map for field use is absolutely necessary for soil mapping. The base maps are prepared on a scale of one inch to the mile, the official data of the original or subsequent land survey being used as a basis in their construction. Each surveyor is provided with one of these base maps, which he carries with him in the field; and the soil type boundaries, together with the streams, roads, railroads, canals, and town sites are placed in their proper locations upon the map while the mapper is on the area. Each section, or square mile, is divided into 40-acre plots on the map, and the surveyor must inspect every ten acres and determine the type or types of soil thereon. The different types are indicated on the map by different colors."

Samples Analyzed.
"After all the soil types of a county have been located and mapped, samples representative of the different types are collected for chemical analysis. For this purpose usually three strata are sampled; namely, the surface (0 to 2-3 inches), the subsurface (2-3 to 20 inches), and the subsoil (20 to 40 inches). These strata correspond approximately, in the common kinds of soil, to 2,000,000 pounds of dry soil an acre in the surface layer, and to two times and three times this quantity in the subsurface of the subsoil, respectively. This is, of course, a purely arbitrary division, very useful in arriving at knowledge of the quantity and the distribution of plant food in the soil, but it should be noted that these strata do not necessarily coincide with the natural strata as they actually exist in the soil, and which are referred to in describing the soil types."

"By this system of sampling there is represented separately three zones for plant feeding. The surface layer includes at least as much soil as is ordinarily turned with the plow. This is the part with which the farm manure, limestone, phosphate, or other fertilizer applied in soil improvement is incorporated, and which must be depended upon in large part to furnish the necessary plant food for the production of crops. A rich subsoil has little or no value if it lies beneath a worn-out surface, but if the fertility of the surface is maintained at a high point, then the strong vigorous plants will have power to secure more plant food from the sub-surface and the subsoil."

Ardmore.—Asleep in an easy chair on her front porch on night last week, Mrs. S. Holman, 113 A Street southwest, was unaware that her house was aflame until it was a mass of flames. She was awakened by the roaring of the blaze and the cracking of burning woodwork. The house was totally destroyed.

Ardmore.—The Rev. W. M. Wright, pastor of the First Baptist church for two years and a half, and a leader in community betterment undertakings, will leave today to accept a call to a church at Fort. Tex. He has served as moderator of the Pittsburg county Baptist association, first vice president of the Lions Club, and a member of the board of directors of the general Baptist convention for the state.

SOCIETY MATRON SUE BY STENO FOR \$25,000 OVER SET OF FURS

Were the
furs of
Miss Agnes
Lage
"stolen sable"
or
"bought
marten"?
A court will
decide, and on
decision
hangs
damage suit
for \$25,000
against
society
matron.

(By Central Press)
DETROIT, Mich., July 28.—"Stolen sable" or "bought marten"? On the answer to that question probably hinges the outcome of the \$25,000 slander suit of Miss Agnes Lage against Mrs. Smith-Bourke.

Miss Lage is a stenographer. Mrs. Smith-Bourke is one of the most distinguished society matrons here. Miss Lage is twenty-two and decidedly good looking. Mrs. Smith-Bourke is slightly older, and fair also.

Women are supposed to have an inalienable right to be curious, but her curiosity is just what made Mrs. Smith-Bourke the defendant in this damage suit.

"How does she do it? Where did she get them?"

Familiar questions as throngs of business girls crowd the streets to and from work.

But they are dangerous ones also, especially when one goes so far as to take a "closeup" of the garments and actually touch them.

Miss Lage says Mrs. Smith-Bourke accosted her on the street, seized the furs and demanded, "Where did you get those?"

FINAL WORD FROM CO. WEIGHER WARD

To the Voters of Pontotoc County, more especially the ladies:
I have tried to see all of you and if I have not it is not because I did not want to. I will thank you in advance for your support on next Tuesday, August 1. I have always been a Democrat and expect to be always.

Somebody has started the tale that I am drawing a salary from the county and working for the Oklahoma Portland Cement company, which is not true; for there is no salary attached to the office of county weigher. The county furnishes nothing, not even the scales. I paid for them myself, and I don't belong to any political bunch or clique. If I am elected, I will do my duty as I have always done and try to give every one satisfaction. I have given satisfaction in the past, for I have never heard any complaint or kicking. I have weighed everything from a poodle dog to a grown elephant, and there has been no dissatisfaction. I have always tried to accommodate people in a pleasant and gentlemanly manner, and if I have failed it has been through ignorance on my part.

I have nothing to say against any of my opponents. I am running on my own merits, not the demerits of my opponents. Thanking you in advance for your support next Tuesday, I am

Yours truly,
JOHN WARD,
Candidate for County Weigher.
7-27-17w

The largest and most powerful searchlight in the world, having 1,200,000 candle power, has just been completed.

To Our Friends:-

We wish to announce that we have purchased the PALM GARDEN.

A place for both old and young to come and enjoy good music and the pleasure of cool refreshing fountain service second to none.

HORSE METTLE TO GET SEVERE TEST

Endurance of Saddle Breeds
Will Be Tried in 300
Mile Ride Soon.

CHICAGO.—The mettle of endurance of various breeds of saddle horses will be tested at Colorado Springs, Colo., in a 300-mile ride which starts August 1 and ends August 6. Partisans of the cow ponies place their faith in the little horses bred in the shadows of the Rockies as against such aristocratic descendants of colicippus as the Arab, the thoroughbred of the race course, the "quarter horse" and others. Details of the event have been made public by the Horse Association of America which has its headquarters here.

The horses will have to carry a rider, saddle and other equipment totaling 200 pounds and when the ride is over he will have to come in sound and fresh and prove it by going all gates in good shape the following day. It also will be an endurance test for the rider deciding whether the devotees of the polo field, the chase or the steer head has fortified himself with the greater amount of stamina by his activities.

Harry McNair, of Chicago, one of last year's judges favors a western bred cow pony for the place in the hall of horse fame which will fall to this year's winner. Out of the 60 to 70 horses scheduled to start he expects five or six to finish in good shape.

Ranchman Enters Two.
Major Henry Leonard, an internationally known horseman, who is king great interest in the contest, has written to Wayne Dinsmore, secretary of Horse Association of America that Edward Pring, a Colorado ranchman has entered two horses; Allyn Perkins of the Turkey Creek ranch has put in three, and Dan D. Casement one of the most famous of the old Colorado ranchmen has backed his belief in the Concha Colonel family of "quarter horses" by entering two sturges sired by that horse.

William Irvine has entered two thorough breeds and the polo pony is represented by two entries from Lafayette Hughes. A good deal of

To My Friends:

A citizen of Ada put into circulation cards, stating that my brother, Judge E. P. Hill of McAlester, who is a candidate for attorney general, while a member of the Legislature had tried to do away with the Ada Normal, and boosting Mr. George F. Short, the present Attorney General's candidacy. I do not know why any citizen of Ada, and especially a candidate should take such steps in my home town where I have lived for 22 years and where I held public office for 14 years.

Below I am publishing my brother's letter in full, which is self-explanatory. I hope my friends in Ada and Pontotoc County, will pay no attention to any falsehoods of this kind, until they have investigated same and found them true. Brother Ed has voted for every appropriation for the Ada Normal, and also, voted for and assisted Hon. W. H. Ebey and Senator Harrison in locating the present Education Building that was built two years ago.

I hope Brother Ed's explanation will be satisfactory and that he will get the same majority he received in this county eight years ago, when he was defeated by Honorable Prince Freeling by a small majority in the state.

Yours for Good Government
SHERWOOD HILL

Mr. S. W. Hill, Ada, Oklahoma,
My Dear Sherwood:

I tried to get you over the phone yesterday, but was unsuccessful. I got Judge McKeel and asked him to put a denial in the Ada paper.

I was astounded to learn that such an uncalled for and unjust falsehood had been circulated against me. As you know, Senator Harrison knows, and as every other man, who has represented Pontotoc County during my service in the legislature, knows, that I have always been the devoted friend of Ada normal school and have never failed to aid it in any way that I could.

I hope you will not hesitate to deny the matters as emphatically as possible, because the record sustains everything that I have said. Especially let the students attending the normal school know in justice to myself, because I do not want them leaving the institution with the wrong impression of my attitude.

Your brother,
E. P. HILL

BIBLE THOUGHT OF TODAY

SAFETY OF THE PERFECT:—Behold, God will not cast away a perfect man, neither will he help the evil doers.—Job 8:20.

WHERE ADVERTISING PAYS

Western Texas is a section that has been built largely on advertising. With the seasons so uncertain that crop failures occur oftener than good crops the country is far from an attractive proposition to those who are familiar with it, but that section has a lot of boosters who are continually getting the advantages before the world in an attractive manner with the result that as soon as one crop of new comers has been wiped out financially they have another moving in. This process has kept the country in much better shape that would otherwise be possible. While we have no intention of ever trying that part of the world again we do admire the hustling abilities of the citizens. They know that advertising is a good one for any country that has any ambition to make progress.

This old world is not all a wilderness of woe. Occasionally one strikes a thicket that gives the impression of a wilderness, and if he keeps going in a circle it will indeed be the same as a wilderness of large extent, but a little clear headed reasoning will give the traveler his direction and on emerging from the little rough spot will find easier going where there are many attractive features and where life is far from being dull. In fact, the path of life leads through a succession of patches of wilderness and attractive plains. However, the individual has much to do with shaping a particular course and how long to linger at any particular spot.

Vardaman is trying to make a comeback in Mississippi, being a candidate for the senate again. Wilson's influence retired him from the senate four years ago and he has written a letter which is being circulated in this campaign in which he declares himself still strongly opposed to Vardaman. The result will be watched with interest and will be a sort of index to the extent of the Wilson influence.

It is reported that Debs has cabled an appeal to Lenin to spare lives of twenty-two socialists now on trial at Moscow. Lenin's doctrines were preached from every socialist platform and street corner in the United States for years but somehow they can't always agree with Comrade Lenin's methods of bringing about a milenium by shooting and hanging any who do hold opinions similar to his own.

An exchange says that Antony's troubles really began when he figured that he could put one over Cleopatra. The wily queen was wise to his tricks, however, and Antony's conceit was given a jolt from which it never recovered. From this the conclusion is drawn that it seldom pays to try to put anything over a woman. She will catch on in short order and then where are you?

How much better off will the average man be next week after the results of the primary are known? Everyone will have to go to working for a living just the same as always and farm products will not be worth any more than they would be if other candidates had been nominated. Soft snaps will be as scarce as they are now.

Most men regard their faults and children in the same light, the most harmless ever. The average man just thanks his stars that he does not possess the particular shortcomings of his neighbor and that whereas his neighbor lives in a glass house he himself is domiciled in a structure of steel.

A report on the dairying industry of Denmark states that in that country butter is too valuable for the producers to eat. They buy oleo and sell their butter, most of which is exported. This enables the rocky little country to lead the world in dairying.

It is always easy to say that such and such a thing should be done but generally the ones making the most fuss about it are the last to get busy. It is always the other fellow who needs to be prodded.

Only two more days until the primary, but that is ample time for campaign liars to get in a lot of work. They usually work overtime when they think it is too late to be caught up with and exposed.

Senator Lenroot accuses some of his colleagues of voting on certain measures without knowledge. Evidently senators are very little different from common folks after all.

A baseball player was given a gold watch by his admirers for stealing bases. The same day a guy was given two years for stealing a watch. Is justice asleep?

It has been suggested that the fishing in Salt river is fairly good, so the passengers taking that route next week are urged to take along a supply of bait.

If the boll weevil can endure this heat, we'll say he is some bird.

For County Commissioner:
(District No. 3)
J. W. HIGBEE

For County Commissioner, District No. 1:
H. CLAY STEPHENS—2nd term

To Whom?
(Muskogee Phoenix)
Consider the testimony of C. H. Mayfield, general chairman of the federated shops crafts, given in the federal court opposing the Midland Valley railroad's application for an injunction.

District Attorney Frank Lee asked: "What was the object of the pickets?"

To which Wayfield replied: "To persuade men not to take out jobs."

The examination continued: "You have quit your jobs?"

"We struck."

"You had quit?"

"We struck."

"What right had you to picket to prevent others from working after you had quit your jobs?"

"So we could protect our jobs."

Thus, in the brief colloquy between the district attorney and a labor leader, are we given the essence of all industrial controversies. Thus is asked the question which America must answer before we may have industrial peace.

To whom do the jobs belong? To the man who pays the wage or the man who receives it? Does a man, once he accepts work, obtain a priority right in his situation? May he cease to perform the tasks he is employed to do and still reckon the position as his? Is it for the employee to say when the employer may replace him or has the employer the privilege of replacing him when he wishes?

To the question there are certain to be two widely divergent answers. The man not versed in unionism will stoutly maintain that it is the employers' privilege to "hire and fire" as he deems best, that it is his money that pays for the work and that he has the right to expend it as he wishes; that it is his business and it, naturally, is for him to strive to conduct it in a manner he believes will make for its success.

It is this reasoning that organized labor disputes. The jobs belong to labor, not to the employer. It is not for him to discharge this man or employ that one. Indeed, it is strictly forbidden. Usually that privilege is invested in the foreman and it may even be that the foreman will be overruled by the union body and that he will be ordered to re-instate an employee whom he has dismissed.

That is the logic voiced by Mr. Mayfield. The strikers picket to protect "our" jobs, he said. They have not quit them, they have merely "struck;" although they have ceased to perform the labor for which they had been employed the positions they held are still theirs.

We present the two contentions without prejudice. Each side will acknowledge them as they have been set forth. And it is because of these wholly divergent views that the railroad shops and the coal mines are picketted today, that there has been violence and bloodshed and the necessity has arisen to marshal troops to protect those who, in the language of the strikers, "have taken our jobs."

It is, we say, the question that must be answered before we can have industrial peace.

To whom do the jobs belong, to the man who pays the wage or the man who receives it?

Pertinent Inquiries.
(Chickasha Express)
E. E. Waite, secretary of the Shawnee Board of Commerce, puts the following pertinent inquiries: "Did you ever stop to think— "That no real citizen takes a real interest in his city until he does something for it. Do your bit. "That the limit of the amount of business a merchant can do, is governed to a great extent by the amount of newspaper advertising he uses. "That you should get acquainted with your neighbors. You might like them! "That you should pity the blind and foolish pessimists of your city. "That every city should clean up and keep clean. "That your Chamber of Commerce is your community's—'guiding light.' "That you should never forget the importance of the various industries that make your city, and never lose an opportunity to encourage and assist them in their growth, for therein rests the success of your community, and the welfare of all who live and work in your city. "That you should look upon your competitors in business as friends with equal rights and privileges. "That the work of your Chamber of Commerce to the business growth of your city is becoming increasingly valuable and indispensable to your best interests."

Flapper Fantasy Pome
There wa a young flapper from Argentine,
Who displayed more limb that a limousine,
She just doted on dates
And scoffed at the fates,
And had no more cares than kero-sene.
—H. R. M.
Certain Test
Two fishermen were angling in a river when suddenly one dropped his rod.
"Say!" he ejaculated. "Did you see that feller fall off that cliff over there into the river?"
"Don't get excited Bill," soothed the other. "Mebee it was a movie actor makin' pictures."
"But, my stars! How kin we tell?"
"Well counseled the judicious one. "If he drowns, he ain't."

A School Man
for a School Job
M. A. NASH

ESTABLISHED 1903
SIMPSON'S
THE SURPRISE STORE
115-117 WEST MAIN ST.

Roff, Okla., July 27, 1922.

Mr. Fred F. Brydia:

It is with great satisfaction that I have read your admirable platform as a candidate for the Lower House in the Legislature, on the Democratic ticket. It is truly Democratic in every plank, and if the measures you propose to work for are established as laws, I believe truly great and valuable reforms will be inaugurated, long needed, that will give us lower taxes, greater economy, increased efficiency, and larger control over our local affairs, in time keeping with the spirit of Democracy, and in the interests of all the people, whatever may be their political belief. The Democrats stand for the people always, and not for the privileged classes only. You will have my vote and I hope that every good Democrat in this county will support you.

Very truly your friend,
JNO. G. JAMES

Don't Be A Quitter Keep the Good Work Going

The elements are in your favor, the brush and drag at your command with which to fight the boll weevil, and we see no reason why this year should not yield a bumper cotton crop.

Mr. Hardy Dial will be glad at any time to talk the situation over with you and give advice from his many years experience with the boll weevil.

With the return of King Cotton means a return of prosperity to Pontotoc County.

The Security National Bank

H. W. WELLS, President. LESLIE PRINCE, Cashier.
W. M. PEGG, Vice-President. E. A. POE, Assistant Cashier.

Wm. L. Cheatham FOR CONGRESS FOURTH DISTRICT

It will probably be of interest and in some measure a recommendation to say:

Mr. Cheatham served as a member of the State Legislature in 1917 and 1919 and is not without legislative experience.

He served as Chairman of Local Board No. 2 Creek County, Oklahoma, during the war, from the organization of the Board to its close, without criticism and without pay.

He is 48 years old, married, and has lived in Bristow, Oklahoma, 20 years.

The Bristow Record says of him:

"Judge Cheatham is a man of great ability. His career as a member of the Oklahoma Legislature is one of which his friends and neighbors are proud. Every member, almost without exception, who served in the legislature with him, is giving him their support in the primary and trying to nominate him for the office."

Obituary

Laverne Joe Raynes, daughter of J. W. Raynes of 215 West Main, died last night at 8:15. She was one year and nine months old. Funeral services will be held tomorrow and interment will be in Rosedale cemetery.

FOR CONGRESS EX-JUDGE ROBERT WHEELER OF TECUMSEH

I am a Democratic candidate for congress from the 4th district, and stand for the time-honored Democratic principles of personal rights, American manhood and a free country.

Congress can end moonshining, bootlegging and poisonous liquor without imprisoning any one, if it will amend the Volstead law to conform to common sense and fairness, and so as to permit a reasonable use of light wines and beer, and to permit the use of other liquors as medicine, without unnecessary restrictions. The present radical measure does not promote the cause of either temperance or respect for law, but is causing a terrible toll of human life to be taken needlessly, and I am for any fair amendment that will give relief from the present deplorable conditions, and restore respect for

law. The 18th. amendment has eliminated the saloon so that its return is no longer a question.

I am opposed to all laws regulating the conscience or personal habits of the individual so long as he does not interfere with the rights of others.

I am for the most liberal laws possible to foster the farm and every other business interest in our country; with fair wages and fair treatment for all who labor in any field, and for fair compensation to all our soldiers, and especially to the widows and orphans of deceased soldiers, and all of those who were injured by sickness or otherwise while in the service.

I am against profiteering, extravagance, a large standing army, compulsory military training and political cowardice.

ROBERT WHEELER.

That Satisfied Smile

It's Broadest at Harvest Time

Poets rhyme about the 'smiling country in the month of May.' But we'd rather see that same country at harvest time, when the smiles are on the faces of the farmers after their well-earned crops have come in.

It's the same in every business at 'harvest'—the time when a man gathers in the returns on his hard work.

Our patrons, using to the full our many facilities and personal service, reap better returns on their investments of time, work and money.

BEGGS AMATEUR TO MEET LOCALS HERE TOMORROW

Beggs, the amateur team that held Ada to a tie for 18 innings last year, will be here Sunday to play Green's Independents.

Reports are that the oil town has as good a team this year as last and that tomorrow's game will be on a level with the usual high class baseball played by the home nine. The game will begin at 3:30.

Although Ada managed to take two out of three games last year from Beggs, the first game was probably the longest and most sensational ever played here. Only one man on each team scored, the extra nine innings being a swift repetition of "three up and three down."

It is expected that the home team will be in better form tomorrow as some of the players who have been in the national guard training camp have returned and started getting into shape. For the first time in three games the locals will be fully re-inforced.

NEW YORK WOMAN GETS LEAGUE JOB

Dr. Josephine Baker of New York is the first woman in the world to be recognized by the league of nations in a professional capacity. She has been made a member of the important health committee.

HALF OF LADY GOLFERS TURN IN THEIR SCORES

Harry Schlenberg reports that about half of the ladies entered in the Elks golf tournament have turned in their scores. Among these only three qualified, these being Mrs. Thussen, Mrs. Patton and Mrs. Parker. Mr. Schlenberg said that he expected about eight ladies to qualify and about fifteen men. He asks that all scores be turned in to him by Monday morning, so that the actual tournament may begin. He later stated that Dr. Breco and Bill Coffman had handed in qualifying scores today.

"La Marseillaise," the French national air, was composed in Strasbourg.

COBB THROWS JOLT INTO LEAGUE RANKS BY CLEVER BATTING

Tyrus Passes Up Sisler in Most Sensational Push For Stick Title.

(By the Associated Press)

CHICAGO, July 29.—Throwing a jolt and punch into the Detroit Americans, which is being felt by every American League club, the veteran Tyrus Cobb, Tiger Pilot, excelling his every past performance at the bat, today is out in front of all American League contenders for 1922 hitting honors, and is leading his mates convincingly in the close pennant race. Tyrus is showing his men how to hit, and this has carried him past George Sisler, St. Louis star, for the batting honors of the league, which he lost to Speaker and Sisler, in the past two seasons.

Cobb, in his last six games cracked out thirteen hits, better than two a game, and boosted his mark from .405 a week ago to .418, while Sisler, who led the batters with an average of .416 a week ago, dropped to second place with an average of .404. He was able to acquire only six hits in as many games. The averages include games of Wednesday.

He Makes 'em Fight

George Peach has instilled a fighting spirit into the Tigers, with the result that they are topping all the clubs in team batting with an average of .307, while the leading St. Louis Browns are next with .301.

Sisler continues to lead in total bases with 225, his 155 hits including twenty-seven doubles, eleven triples, and seven homers. He failed to increase his stolen base record, but is showing the way with thirty-four thefts.

Clarence "Tillie" Walker, the slugger outfielder of the Athletics, bagged another homer and is leading the home run clouters with twenty-four. Ken Williams, of the Browns being the runner-up with twenty-two, with Babe Ruth tagging along with seventeen.

There was practically no change in the relative standing of the batters in the National League. Rogers Hornsby of the Cardinals, who has been setting the pace added one point to his mark of a week ago, and tops the list with an average of .398. Ray Grimes, the slugging first baseman of the Chicago Cubs, and maintained his mark of a week ago—.394, and moved up to second place, displacing the veteran Jake Daubert of the Reds, who dropped eleven points but is holding third place with an average of .360.

Hornsby Leads Majors

Hornsby bagged another homer and is leading all major leaguers with a total of twenty-six. He also crossed the plate five times in his last six games, and has taken the lead from Max Carey of the Pirates, as the best run getter. The St. Louis star crossed the plate 80 times, while Carey scored 79 runs.

Carey, however, increased his lead for the stolen base honors by three thefts, bringing his total to twenty-seven.

Wilbur Good of Kansas City is threatening an upset in the American Association batting race, judging from his performance within the last week. He collected ten hits in six games, boosting his position from fifth to third place in the list of leading sluggers for an average of .371.

Eddie Brown of Indianapolis continues to set the pace with an average of .382, with Jay Kirtke of Louisville running second with .376. The figures include games of Wednesday.

Becker of Kansas City is creeping up on Bunny Brief, his teammate, for honors in home run hitting. Becker smashed out a brace of homers, bringing his string up to seventeen, while Brief's total of twenty-two remains unchanged.

In base stealing, Mathers of Milwaukee and Baird of Indianapolis are tied with nineteen apiece.

Base Stealers Compete

The battle of base hits raging in the Western League today finds Herman of the Omaha club topping the list with an average of .440, with Fisher of St. Joseph second with .391. Manush of Omaha is third with .373. These figures are based on games including those of Tuesday.

Lamb of Tulsa and Washburn of Wichita are threatening to pass Davis of Tulsa in the scramble for knocking out homers. They have collected nineteen, while Davis is leading the race with twenty-one.

Hemingway of Sioux City is so far in the lead in base stealing that his rivals almost have given up hope of catching him. He has thirty-five thefts to his credit, with Elsh, his teammate, the runner-up with twenty-five. Elsh is the star for whose services White Sox and Pirates are clamoring.

Schlenberg of Little Rock is shooting to the top of the Southern Association batting list with menacing speed. He climbed from sixth to second place within a week, boosting his average from .330 to .340 as a result of connecting with eleven hits in seven games. Schulte of Mobile is still on top, however, with an average of .345. The figures include games of Tuesday.

Silva of Birmingham continues to show the way to the base stealers with a total of thirty-one, with Henry of New Orleans second with twenty-eight. Connolly of Little Rock, with ten homers in the bag, is the leading home run hitter.

HORSEMEN WILL LOWER RECORDS IN TOLEDO RACE

(By the Associated Press)

TOLEDO, O., July 29.—Horsemen are looking for some record performances by the harness when, for the second time this year, the Grand Circuit reinmen invade the Fort Miami track here for five days next week.

The first week the Fort Miami track was in existence, during the summer of 1918, Single G. set a world record by pacing three heats all under two minutes. It has been seldom that a Grand Circuit meeting has been held here when records have not fallen, and this year has been no exception. During the opening meet here this year, Margaret Dillon, driven by Tommy Murphy, paced the three fastest heats ever negotiated by a mare, and a set a season's speed record by going the second mile in two minutes flat.

The Matron stake, one of the richest events on the Grand Circuit, will feature next week's meet. It will be raced August 1, and will be worth approximately \$8,500. The event is for three year old trotters, and is one of the few futurities decided on the Grand Circuit.

Twenty-one events will be run off during the five days program and approximately \$45,000 in prize money will be divided among the winners in the various events.

The week's program follows:

- Monday, July 31—
2:07 trot; 2:10 pace (The News Bee stake); 2:17 trot; 2:04 pace.
Tuesday, Aug. 1—
2:07 pace; 2:12 trot (The Toledo Blade stake); three year old trot (Matron stake); 2:15 pace.
Wednesday, Aug. 2—
2:09 pace; 2:05 trot (The Steadman stake); 2:17 trot (The Toledo Times stake); 2:14 trot.
Thursday, Aug. 3—
Free for all pace; 2:08 trot (The Elks Club stake); Two year old trot (The Legal News stake); 2:11 trot; 2:04 trot.
Friday, Aug. 4—
2:09 trot; 2:03 pace (The Wayne stake); 2:12 pace; 2:15 trot.

TEAMS SHOW INTEREST IN CROSS COUNTRY RUN

At a meeting at the Normal last week several schools in this district expressed a desire to enter teams and individuals in the cross country. It is planned to have one race for all comers, and also a run between schools in the East Central conference district.

(Mr. J. C. Stalcup was for 13 years Secretary and 9 years President of the Oklahoma Baptist Convention, and is loved by all who appreciate a beautiful character.)

Los Angeles, California.

To My Democratic Friends in Oklahoma:

Since so many years of my life have been spent in Oklahoma in co-operation with you and others in earnest efforts to build up and improve conditions, and as I will not return to the state in time to cast a vote in the primary, I may not be "out of order" in speaking to you in this way concerning the political crisis through which the state is passing, brought about by conditions and causes which I do not care to discuss. We cannot improve upon the past either by cussing or discussing it—our hope is in the future.

As I have thought the matter over, I am impressed that the most important single act in the program is the selection of the best available man for Governor. A mistake here will be ruinous to both party and people. Conditions in Oklahoma now demand of both parties that they act with great care and wisdom in the approaching primary. From my young manhood I have been and am still a strong advocate of democratic principles and policies—honestly and intelligently applied—and am consequently the more interested in the man to be the standard bearer. Upon this important question, after a most thoughtful consideration of the qualifications of each and all who are asking for the nomination, I am thoroughly convinced that Judge Thos. H. Owen is pre-eminently the best qualified man for this office. Without intending to discredit any, I must say that Judge Owen has the essential qualities of head and heart (now so much needed) with his successful experience—which strongly appeal to me, and I think will appeal to all who know him, as being the one man who can not only be elected in the general election, but also give an administration to all the people of the state which will be for the best interests of the entire state. Let's nominate him by such an overwhelming vote that will guarantee his election.

(Signed) J. C. STALCUP.

Judge Owen has been an elder in the Presbyterian church for many years. His wife is a member of the Presbyterian church. He is the Sunday school teacher of the Men's Brotherhood Class in Oklahoma City, one of the largest Sunday school classes in the Southwest. Do not be misled by eleventh hour propaganda issued against Owen by political enemies.

(Political Advertising—Paid for by Pontotoc County Friends of Judge Owen)

OKLAHOMA RULES WILL GUIDE TEAMS DURING HOT SERIES

Healdton and Okla. City Teams Strong Contenders For Diamond Honor.

There will be no doubt as to the state amateur baseball champion this year if the Daily Oklahoman carries out its plan to decide which amateur club in the state deserves such credit. Ada claimed the title last year after defeating every challenger in contests of three game series.

There are four strong contenders for the state title this year, which include Healdton, Woodward and Co. of Oklahoma City, Ada Independents and Wilson and Co. of Oklahoma City. All of these teams have good records. At present however the percentage of the team standing can not be ascertained.

The Oklahoman plan calls for teams to play at least ten games during the season. One of the points to be considered will be the number of games won and lost and the quality of the teams defeated. Judges for the contest will be Charles Brill of the Oklahoman, Jack Holland, owner of the Oklahoma City Western League club, and J. C. Daniels, president of the Western Association. The contest will close in September.

A Title Series.

In case there are two or more teams with records so near the same point, that a fair decision cannot be rendered by the judges, the title question will be settled by playing a series of three games. It is expected that a large number of teams over the state will participate in the contest.

Provisions are made in the Oklahoman rules that a team will not use men who have played professional ball this year. While most of the teams are using ex-professionals, not many of them are using men who have played professional ball during the 1922 season. Ada is probably the only club in the race which can boast of a team composed entirely of home players, none of whom are connected with professional ball.

Healdton Is Jinx.

The only dark spot on the record of the locals this year is the two games lost to Healdton. Both games were given away, errors at critical stages of the games allowing runs which proved the downfall of the locals. Score in the first game was 3 to 1, Ada taking the lead only to lose it just before the close of the game. In the last game the score was 2 to 1, Ada again taking the lead only to lose it on error.

Manager Green has promised local fans that if the Healdton club will consent to the proposal, which he probably will make, a possible series of three games will be played here.

At any rate, it is pointed out, the state championship contest will make it possible for Ada to get to play with some of the best teams in the state and at the same time attract statewide attention. Local fans, as well as players, are confident that the home team will be able to hold its own when the final round is played.

By Norman E. Brown

CHARLEY HOLLOCHER

Is given much of the credit for the spectacular work of the Chicago Cubs which put them and has kept them up around the top in the National League scramble. Chicago critics will tell you this demon short stop is the best man in the national league if not in the majors at the shortstop position.

While Hollocher's fielding has been scintillating his batting has been the main factor in the dizzy pace the club has maintained.

Hollocher has made a bid for the shortstop honors ever since he joined the Cubs in July, 1917. His playing with the Portland club of the Pacific Coast League drew the attention of big league scouts and the Cubs nabbed him. He played in 131 games his first full year up and was the talk of the league before the end of the 1918 season. He has confined his activities in baseball to shortstopping. He played that position with Keokuk in the Central Association when he broke into baseball in 1915. Portland grabbed him the next season but turned him over to the Rock Island club under option for a time.

St. Louis derives a measure of pride from the fact that Hollocher was born in that city June 11, 1897.

There are more than 20,000 steamers, tugs and barges on the Rhine River.

Slick Eel Makes Great Problem For Experts on Marine Subject

(By the Associated Press)

WASHINGTON—The common, everyday, mudhole eel, the problem of fishermen, especially the small boy, when it comes to taking him off a hook, is an elusive subject, but his life history typifies one of the marvels of the sea, and recent announcements have added to his reputation.

Reports have just reached here of the success of a Danish expedition to the Bermudas, in answer to the ancient question of the eel's origin. Headed by Dr. John Schmidt, director of the Carlsberg Laboratory, of Copenhagen, the party, on the ship, Dana, has been searching the seas for seven months to find where the eel breeds and is hatched. As the eel industry is of prime importance in Denmark, the party was equipped by the government and several societies in conjunction. Dr. Schmidt has been making a special study of the eel for more than fifteen years.

Since at least 350 B. C. scientists have been trying to find the eel's birthplace, and by tracking down the route found taken by the young eels. Dr. Schmidt placed the breeding grounds between the Bermuda and the Leeward Islands, where the sea reaches a depth of more than a mile.

Breed Side by Side

Here the most remarkable discovery was made: that the European species and the American, which vary so slightly as to be almost negligible, and absolutely so to the layman, breed side by side and eventually start for their later homes, thousands of miles away, but that neither variety ever goes to the other's fresh water grounds.

The marvel is, to scientists, according to Dr. H. F. Moore, Deputy Commissioner of the U. S. Bureau of Fisheries, that of the millions of young making the trips, instances of discovery of the European species in American waters, and vice versa, have been exceedingly rare. And there is no interbreeding between the two.

The European species Dr. Schmidt

T. O. CULLINS

obstructions as they climb after a fashion of clinging under the water film, to the rocks.

Live For Years

They live for years in fresh water the period being variously placed at from five years to as many as twenty and thirty as estimated by the Englishman, O. Tate Regan. In the fall, the mature eels journey back to the sea, the males being from twelve to eighteen inches in length, and the females never less than eighteen. At the original breeding place it is believed they spawn and die, as they are never seen again.

It is during this fall trip the eels fall prey to fishermen, who reap a good harvest as they are a prime food fish. While not so highly prized in this country, in Europe they are considered exceedingly high from the North Sea to Italy, and the Danish and Holland industries are of special importance in those countries. The fish are caught in traps similar to lobster pots or rat traps, entering a narrow funnel mouth after the bait, and being unable to find the outlet.

NEW BETHEL

School is progressing nicely with a good attendance. Much interest is being manifested by the teachers for the betterment of the school.

HALF A CENTURY

Oklahoman Praises Black-Draught, Having Used It "Can Safely Say for 50 Years."

Grandfield, Okla.—One of the best known farmers of Tillam County, Mr. G. W. Tisdale, who owns and manages a wagon yard here, says:

"I have used Black-Draught's Black-Draught—I believe I can safely say for fifty years."

"I was born and reared in Texas, Freestone County, sixty-four years ago. I have been married forty-four years. My father used Black-Draught before I was married, and gave it to us."

"For forty-four years of my married life, it has had a place on our medicine shelf, and is the only laxative, or liver medicine, we use. We use it for torpid liver, sour stomach, headache, indigestion. I don't think we could get along without it, knowing what it has done for us, and the money it has saved. It is just as good and reliable today as it was when we began its use. My boys use it and they are satisfied it's the best liver medicine they have ever used."

Black-Draught is purely vegetable, not disagreeable to take and acts in a prompt and natural way.

So many thousands of persons have been benefited by the use of Black-Draught, you should have no hesitancy in trying this valuable old well-established remedy, for most liver and stomach disorders. NC-129b.

Mrs. Edd Ellis and Mrs. Rose visited Mrs. Fred Foster Sunday afternoon.

Mr. and Mrs. Cleve Daniel spent Saturday night with Mrs. Daniels parents at Ada.

Dowd Walker went to town Monday.

Ernest Cannaday spent Sunday with Dewitt Walker.

HOW TO ARREST SPEED DEMONS OF AIR, PUZZLE

(By the Associated Press)

WASHINGTON, July 21.—How're you going to catch a law-breaking airman a thousand feet up in the air when you haven't a plane, a balloon, or even a stepladder to get him with? That's the question agitating the District of Columbia police today on the eve of the going into effect of Washington's newest and most stringent traffic regulation. Hereafter police will be expected to see that no flighty human flyer goes lower than the fixed safety limit; that none of them attempt any fancy flying; and—worst of all—that every flyer over Washington roofs has a license.

It's the last section of the new rule that bothers the cops most, for there's not a single plane owned by the entire police force with which to stop the reckless in mid-air to gruffly demand a sight of their permits; and what's more, say public officers, no one on the force sees any possibility of there ever being one.

Cops In Distress

Nevertheless, there's the law, and the coppers are scratching their heads to find a way out. The air traffic rule is the direct outcome of the act of a commercial flier who flew so low over the assemblage at the dedication of the Lincoln Memorial, last Decoration Day, that he drowned out President Harding's voice during his address. Public and official denunciation aroused Congress to the promulgation of the regulation and stiff fines now await the unthinking fliers.

While the order was issued a month ago, the penalties do not go into effect until midnight tonight. It is provided that no flier shall descend lower than three thousand feet within the D. C. boundaries, unless landing, taking off, or enroute to another point; that all persons except United States Agents, such as army, navy, marine corps and mail fliers, must be duly licensed pilots, that no trick flying shall be attempted under any circumstances; and that aviators shall land only at designated fields.

Qualified pilots will be granted free licenses by the District Commissioners, and licenses issued by any lawfully created board of any state or by any branch of the federal government will be accepted in qualification. However, pilots passing over the District without descending into the safety zone will not be expected to have a license.

Police officials do not expect air traffic to become a very great problem for some time yet, so they will rely upon the integrity of pilots to keep within the law. If any of them try to pull the wool over police eyes by fleeing after they break the law, eagle eyes will mark their descent and they'll be nabbed anyway.

Church and Sunday School

Nazarene Church

A cordial invitation is extended to all to attend all services. We especially want the young folks to attend the Sunday school and the N. Y. P. S.

Sunday school 9:45. Mrs. Melton, teacher of the young peoples' class. Preaching 11 a. m. and 8 p. m. by pastor.

N. Y. P. S. 7 p. m. Mid-week prayer meeting Thursday 8 p. m.

The ladies home missionary society meets Wednesday 1:30 p. m. Bible study, Tuesday 8 p. m.—Rev. T. L. Taylor, pastor.

N. Y. P. S.

Subject: The life of a few Bible characters.

Scripture lesson: Hebrews 11.—Lora Taylor.

The life of Daniel.—Mrs. Shanks. The life of Moses.—Beatrice Graham.

The life of Jonah.—Mary Rushing. Piano solo.—Beatrice Graham.

The life of Job.—Mrs. Cunningham.

The life of Isaiah.—Ella Carpenter.

Song.—Girls quartet. Mrs. Shanks, group captain.

Group 3 will render this program Sunday 7 p. m. Everyone is cordially invited to come.

Oak Avenue Baptist Church

All regular services Sunday. A cordial invitation is extended to everyone. Let's bring the attendance of our Sunday school to "high-water mark." We hope to see you at all the services Sunday. The pastor will speak both morning and evening. Theme for morning service "Working the Works of God." Evening service, "The Attractive Power of the Crucified Christ."

Sunday school at 9:45 a. m. Senior B. P. U. at 7:30 p. m. Intermediate B. Y. P. U. 3 p. m. Preaching at 11:00 a. m. and 8:30 p. m.—J. H. Page, pastor.

First Baptist Church.

Our Sunday school meets tomorrow at 9:45. We are very anxious to hold up around five hundred during the summer months. Thus far we have held up fine and we very much hope that we may continue to do so.

The Men's Bible Class will meet at the McSwain Theater at 9:30. We are very anxious for a large attendance of the members to be present as the Baptist Scouts of the city will be the guests of the class. We are very anxious to have the fathers of all Baptist Scouts to come with their boys.

The pastor will preach at the morning hour on the subject "Members of Christ." The music will be under the direction of Prof. Pentem. We stress congregational singing and our services are always informal. We want the people in the pews to

have a part in the services.

The B. Y. P. U.'s will all meet at 7:15. All the young people are cordially invited to be present.

The evening service will begin promptly at 8:30. The sermon will be evangelistic and an appeal will be made for the unsaved to accept Christ Jesus the Lord. This is our supremest business in the world and we are always delighted to have people accept Him as Savior.

Let us greet you at our services tomorrow.

CLYDE CALHOUN MORRIS, Pastor.

Christian Church.

9:30 a. m. Bible school.

Men's Bible class at Chamber of Commerce rooms and Loyal Daughters class at Criswell & Myers chapel.

11:00 a. m. morning worship.—7:00 p. m. Y. P. S. C. E.

8:00 p. m. evening service.

After this Sunday the pastor and family will be absent till the first Sunday in September. Let's us have a good service together tomorrow. We will begin on time and quit on time. A good supply of fans at the church. All are invited.

H. M. WOODS, Pastor.

Sunday school at 9:45. Prof. R. S. Newcomb, Supt.

Preaching at 11 a. m. by Rev. J. W. Sims of Tulsa.

Preaching at 8 p. m. by the pastor.

Everybody invited.

J. H. BALL, Pastor.

St. Luke's Episcopal.

Morning prayer and sermon at the usual hour. Rev. Franklin Davis will preach at 11 o'clock and there will be holy communion. Sunday school at the regular time.

Young Peoples' Missionary Society.

Methodist Church

July 30, at 7:00 p. m.

Every fifth Sunday is Bible study day. Every member is urged to bring his or her Bible. Mrs. Val Land will conduct the lesson this week. Don't forget your memory verses.

The Life of Sampson—Leader. Devotional exercises—President. All young boys and girls are urged to be present. Visitors are welcome.

Presbyterian Christian Endeavor

Song Service.

Subject, Lessons from Great Home Missionaries.

Scripture Reading, Acts 8: 4-17—Katherine Willepizick.

Talk—Leader.

Patient Endurance of Wrong—Maurine Evans.

Resisting Temptation—Jakie Wright.

Large Results from Small Meetings—Jeanette Bobbitt.

Sheldon Jackson's Threefold Work—Don Evans.

A soft answer that turneth away wrath—Alice Gowing.

Announcements.

Benediction.

Here's An Extraordinary Value in

MEN'S SHIRTS

at \$1

They are made of high grade Percale; solid colors of grey and tan; also fine checks of tan, blue and black. Collars attached. They look double the price.

Stevens - Wilson Co.

Asbury Methodist Church

Sunday school at 9:45, J. E. Jared, superintendent. Epworth League at 6:30 p. m. Preaching services at 8 p. m. R. E. BROTHERS, Pastor.

Honoring Miss McClure

A delightful dinner party honoring Miss Emma McClure was given by Mrs. A. Linscheid at her home on South Francis Avenue Thursday evening.

Miss McClure left Friday for Chicago where she expects to do graduate work in languages, preparatory to assuming her duties as head of the foreign language department in Tulsa University in the fall. Miss McClure has held a similar position in the local college for the past four years and has made an enviable record as a teacher.

While her many friends among both faculty and students regret that she is going, they all rejoice with her for the opportunity of advancement.

There are about 4000 miles of gas mains under the streets of London.

An electric lamp which will burn three years without current is the invention of an Italian engineer.

HELP ADA AND PONTOTOC COUNTY

by voting for a home man for Representative in Congress

HON. TOM D. McKEOWN

Tom is clean, honest, and honorable and one of the most intelligent men who ever sat in the halls of congress.

There has never been a member of Congress who was more nearly universally admired and loved than this famous citizen of Ada.

Let's give him a unanimous vote in Pontotoc, his home county, next Tuesday.

WE CAN WIN WITH TOM D. McKEOWN.

(This space was paid for by Tom D. McKeown's friends in Pontotoc County who have known him for almost a score of years)
